

WE HAVE A PROBLEM!

Marine litter is harming the health of ecosystems. Human health is also at risk!

WHAT IS MAELSTROM?

Is a H2020 project designed to develop and test innovative technological solutions for the **removal and treatment of aquatic litter** within coastal ecosystems.

MAELSTROM

Remove. Recycle.
Give it a new use.
Repeat.

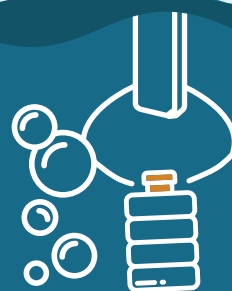

WILL WASTE REMAIN WASTE?

Definitely not!
Recycled litter will be put back into the industrial chain, becoming a new resource!

IDENTIFY

litter accumulation hotspots

REMOVE

litter from the seabed and water column

RECYCLE

removed litter

MARKETIZE

recycled products and materials

HOW DOES MAELSTROM WORK?
